Overview
Programs that once were known as Accel, dual enrollment, and the old Move On When Ready have been consolidated into one program called Move On When Ready (MOWR). The new MOWR allows high school students to take either academic degree level core courses that will transfer to any TCSG or USG college or university, occupational courses, and diploma level core courses. Some students may choose to enroll fully into a degree, diploma or technical certificate of credit program, or they may choose to just take a few courses. All college coursework taken through MOWR will be fully covered through MOWR funding, and students will not be required to pay out of pocket for tuition, college fees, or textbooks. The only fees students may be responsible for are course-specific fees determined by the college. No hours taken through the new MOWR program will count towards a student’s HOPE Grant or Scholarship Caps. Participating in the new MOWR program is a great incentive for high school students to get ahead on their college coursework!

Eligibility
Any 9th – 12th grade student enrolled in an eligible Georgia high school or home study program, who has achieved required scores on the college placement exam, is eligible to take part in the program. There are NO residency or citizenship requirements.

Coursework
All of the classes that were available under the old dual-enrollment, Accel, and old Move On When Ready programs will still be available under the NEW Move On When Ready, plus many additional courses. Courses may be taught face-to-face on the college campus, the high school campus, online, hybrid, or via Tandberg distance education. Students will be allowed to take up to 15 credit hours per semester at each college they attend.

Application Process
High school students wishing to enroll in the new MOWR program must first meet with their high school guidance counselor. New MOWR students will be asked to complete a Wiregrass MOWR Application packet which will include all of the required forms needed to participate in the program. Additionally, students will be asked to go onto the GA411 website to apply for their financial aid. Once a student has done this, his/her high school counselor will then add the approved classes in Stars, and the Wiregrass Financial Aid office will approve the courses. New MOWR students must complete the online MOWR funding application each semester they are enrolled at the college.

Tuition, Fees, and Books
Tuition and most fees are covered by MOWR for every eligible student in the program. Books will also be provided to new MOWR students at no charge to the students. Because students are now eligible to participate in almost all Wiregrass programs, they may be responsible for course-specific fees in some program areas; however, most Wiregrass programs do not require such fees. Students should speak to the High School Coordinators to find out specifics about course-related fees.
