Mission

The Wiregrass Georgia Technical College Associate of Science in Nursing Program, an integral division of its parent institution is dedicated to supporting the overall mission of the College. Congruent with the values and mission of the college system, the mission of Wiregrass Georgia Technical College Associate of Science in Nursing Program is to pursue academic excellence in teaching to develop highly trained, technologically competent, professional nurses who provide caring, patient-centered, holistic care within a collaborative interdisciplinary environment serving the diverse needs of the citizens, businesses, and industry in South Georgia.

Student Learning Outcome Statements

Upon completion of the Wiregrass Georgia Technical College Associate of Science in Nursing Program, the graduate will:

1. Advocate for patients and families to have access to quality care that promotes self-actualization and health promotion with a caring perspective in a variety of environments
2. Provide interdisciplinary, competent, holistic, patient-centered, developmentally appropriate nursing care with respect for the patient's beliefs, culture, diversity, values, and preferences
3. Make clinical judgments based on evidence that incorporates science and different ways of knowing including critical thinking, intuition, and reflection
4. Implement progressive nursing practice that reflects caring, excellence, accountability, integrity, safety, advocacy, ethical standards, evidence-based nursing judgments, and quality improvement processes for diverse patients in a variety of environments
5. Utilize informatics and health technology to best support safe and effective care

End-of-Program Student Learning Outcomes (EOP SLOs)

Upon completion of the Wiregrass Georgia Technical College Associate of Science in Nursing Program, the graduate will:

1. Students will support health promotion for patients and families.
2. Students will provide culturally diverse patient centered care.
3. Students will apply competent clinical judgement in practice.
4. Students will implement evidence-based practice in patient care.
5. Students will integrate nursing informatics to support best practices in patient care.
